

Conference phones for every situation

Konftel 60W – the flexible solution for smart audio conferencing

The Konftel 60W is a stylish mobile conference unit for the modern office that includes Bluetooth technology for even greater versatility. With superb sound quality and easy-to-use functions, it connects easily to computers and system telephones as well as operating cordlessly with Bluetooth® enabled mobile phones.

Bluetooth®

KONFTEL FEATURES

- **OmniSound®** – crystal clear sound
- **Natural sound** – in both directions (full Duplex)
- **2 year guarantee**

KONFTEL 60W FEATURES

- **Portable unit** – simple to connect and use
- **Requires no dedicated telephone line or subscription**
- **Connects to most system phones, DECT and mobile phones**
- **Can also be connected to your telephone or computer using IP telephony**
- **Expandable with additional microphones**
- **Compatible with telephone features, e.g. three-way calling**
- **Connects wirelessly to unit equipment with Bluetooth® technology**

Now you can hold a meeting anytime – regardless of distance and pressing schedules. Konftel makes telephone conferencing the ideal alternative, providing an opportunity to bring people together and hold spontaneous meetings to reach instant decisions. Konftel conference units are all equipped with the unique OmniSound® feature – optimal sound for totally natural, crystal clear communication.

Versatility at work!

The Konftel 60W connects to all types of telephones making it ideally suited for every conferencing requirement. With a range of up to 30 m² it can be used practically anywhere in the office where there is a power supply. When additional microphones are added, the Konftel 60W expands to a range of up to 70 m².

The Konftel 60W connects to all devices!

System phones connect to the Konftel 60W via the handset outlet. The switchbox means that you can quickly change between speaking hands-free and using the handset. You can also connect a headset. The Konftel 60W can be placed up to ten metres from the phone if connected to a system telephone with Bluetooth® technology.

Your mobile or DECT telephone transforms into a quality conference phone when connected to the Konftel 60W using a Bluetooth® connection or an optional cable.

Computers (PC/Mac) equipped with software for IP telephony (Skype.com, Alcatel WebSoftphone, Nortel IP softphone 2050, etc.) are easily transformed into a conference IP Softphone by connecting a Konftel 60W to the sound input on your computer (cables provided). Konftel can supply an optional USB adapter for direct connection to the USB port on your computer or use a Bluetooth adapter for a wireless connection.

The Konftel 60W incorporates practical, easy-to-use features

The Konftel 60W is fully compatible with whatever device it is connected to, which means you can choose whether to conduct your phone conferences via the Konftel 60W or from your phone. You can also simultaneously use a mobile phone for conferencing – even when the Konftel 60W unit is already connected via a cable to a system telephone. In addition, the Konftel 60W supports numerous facilities, including call holding, redialling and three-way calling.

OmniSound® – crystal clear sound

Walk and talk freely around your room with consistently high quality sound. There is no irritating sound clipping, damping or echoes. OmniSound® produces natural sound in both directions (full Duplex) as well as 360° sound pick-up and reproduction. An ultra-sensitive microphone provides omni-directional sound pick-up and three built-in surround speakers provide crystal clear sound through the room.
