

Jabra A7010 BLUETOOTH® HUB

Bluetooth enabler for desk phones

With the Jabra A7010 Bluetooth hub you can connect wirelessly too your mobile phone and simultaneously to your corded desk phone. So now you need just one headset for your phone calls.

The Jabra A7010 Bluetooth hub is compatible with most standard corded desk phones: analog, digital, PBX and IP. It is easy to set up, you simply need to connect your desk phone to the Bluetooth hub and the Bluetooth hub to your telephone plug.

With a Jabra headset, you now have the same call comfort in your office as you do with your mobile phone. You will also experience great sound through the digital sound enhancement technology, DSP.

The Bluetooth range is up to 33 feet, enabling you to walk while you talk and enjoy wireless freedom at work.

The Jabra A7010 Bluetooth hub works with all Jabra Multiuse headsets. So when you upgrade to a new headset you can continue to use the same hub.

Stay connected without being plugged in!

BLUETOOTH® HUB

Technical Specifications	
What is Multiuse?	Multiuse is a range of Jabra headsets from GN featuring MultiPoint technology that allows simultaneous connection to several Bluetooth enabled devices
What is Bluetooth wireless technology?	Bluetooth wireless technology is a radio technology developed to deliver short-range wireless mobility. Bluetooth technology eliminates wires between devices, such as mobile phones and headsets, and enables communication between devices that are in close proximity to one another. Bluetooth facilitates fast, secure transmissions of both voice and data. More information is available at www.bluetooth.com or www.bluetooth.org
