

## GN 9350

### Pure wireless freedom. Dual function. Desk and IP telephony.

The dual-function GN 9350 wireless headset provides high performance in both traditional and PC-based telephone environments. That means you can expand—or even change—your telephone system without having to purchase new headsets. The GN 9350 provides all the benefits of hands-free mobility in a lightweight, ergonomic—and future-proof—design.

- Up to 300 feet of office mobility
- Future-proof investment: single headset for traditional and PC phone calls
- WiFi-friendly 1.9 GHz frequency with DECT 6.0 wireless technology
- DSP and IntelliTone™ for superb sound quality and greater hearing protection
- Noise-canceling microphone for reduced background noise
- Digital encryption for secure conversations
- LCD display for easy set-up of personal sound preferences
- Lightweight design and three wearing styles: headband, earhook and neckband
- Multi-unit conferencing capability

The GN 9350 makes everything sound better. State-of-the-art Digital Signal Processing (DSP) technology removes impurities from the incoming signal, enriches sound quality, and maintains a safe, consistent volume level. The GN 9350's sleek boom arm with noise-canceling microphone means your voice is always transmitted clearly.

The GN 9350 is also the first wireless headset for IP telephony that features wideband audio. Its impressive 6.8 kHz audio bandwidth is more than twice that of conventional telephony! Not only does high-definition sound give you the feeling of a true "face-to-face" conversation, it also helps increase your productivity because you hear every detail the first time.

Intuitive and easy to use, the GN 9350's sophisticated LCD display lets you set call parameters, such as volume and audio output, to suit your individual preference. It also expands your communications potential with a wireless range of up to 300 feet, conference call capability and, with an optional hot-swappable interchangeable battery, around-the-talk talk time.

# GN 9350

Feature	Benefit
Dual functionality	The GN 9350 connects to both your standard desk telephone and your computer for PC-based IP telephony.
Range up to 300 feet	With a range of 300 feet in a typical office environment, you'll be able to walk, talk and work throughout your office.
Talk time on a single charge: • 6 hours PC talk time • 9 hours telephone talk time	Conduct all your business without cutting calls short. A second, interchangeable battery is available as an accessory.
Standby-time: 43 hours	Your GN 9350 is always standing by, ready for action.
Battery recharge time: 3 hours	Your headset is always ready for the next day's business.
Battery charge status	The four LEDs on the base keep you informed of your headset battery status at all times.
Noise-canceling microphone	Your voice is transmitted clearly, even in noisy environments.
Full wideband audio of 200 Hz-6.8 kHz using IP telephony	The GN 9350 is the first wireless headset with wideband, high-definition sound quality so everything sounds crystal clear.
Audio bandwidth of 200 Hz-3.5 kHz in telephony mode	Full fiber optic sound with the added bonus of hands-free mobility.
Mute function	The mute button is easily accessed, preventing your voice from being transmitted when you need to consult with a colleague.
On-line indication	Easily recognized LED illumination informs others of your on-line status.
Volume control	Intuitive controls facilitate easy volume correction.
DSP (Digital Signal Processing)	Sophisticated DSP technology processes the incoming signal and removes impurities, giving you incredibly clear, rich sound.
Auto-volume	DSP auto-volume automatically eliminates fluctuations, adjusting the volume of all incoming calls to the same, consistent level.
LCD set-up display	Easy setup of call parameters to meet your personal preferences.
3 wearing styles: • Over-the-head (headband) • On-the-ear (earhook) • Behind-the-neck (neckband)	There is a wearing style to suit every preference, providing optimum working comfort.
Multi-unit conferencing	Up to four GN 9350 headsets can synch to one base to facilitate conference calls. Fully mobile, convenient conference calling without the conference room or traditional crackling telephone conferencing equipment.
Easy-synch base	Economical option for multi-shift applications – use one base and swap out just the headset for each user.
Remote call answering/ending	The optional GN 1000 remote handset lifter, which mechanically lifts/lowers your telephone's handset, lets you answer/end calls while away from your desk.
PeakStop™ technology – max 118 dB SPL (RMS)	Protection against sudden, loud sound spikes from the telephone network.
64-bit digital encryption	The GN 9350 digitally encrypts your calls, giving you complete call security and conversation confidentiality.

<b>Technology:</b>	DECT 6.0 operating at 1.9 GHz
<b>Warranty:</b>	1-year warranty
<b>Specifications:</b>	Transmission power: 63 mW Operating temp. 10° C/40° C Storage temp. 0° C/40° C Headset weight: .84 oz. (26 g) Base weight: 9 oz. (255 g)
<b>Compliance:</b>	The GN 9350 USB meets the electric strength test and impulse test requirements of the international standard IEC 60950-1. It also meets EN 60950, AS/NZS3260, and UL 60950 standards. IT4 – world's toughest standard for noise and acoustic shock. EU safety regulations – cumulative noise exposure should never exceed 85 dB SPL.
