

Don't Just Hear the Game—Feel It

Transform the game. Feel every bit of action around you and hear opponents before they see you. Stay focused on winning—adjust volumes without taking your eyes off the screen and know your commands and comments will be clearly heard. After the game, keep these comfortable headphones on to catch up with friends on Skype or relax and enjoy your movies and music in stunning, cinematic sound.

FEATURES

- Hear the game as the developer intended in stunning 7.1 surround sound quality from Dolby® Headphone technologies
- Enjoy games, chat, and music wearing headphones so comfortable, you'll forget you're wearing them
- Teammates or opponents clearly hear your commands while the flexible, hinged mic boom kills background noise
- Quickly adjust the volume or mic mute with on-ear controls while you stay focused on the game
- Designed to be around for all your battles, superhero-strength cords and joints won't let you down
- Drop the headphones around your neck, rotating the earcups to create mini-speakers or, when you want to take a break, swivel the lay-flat earcups for easy storage
- Easily connect to your PC or Mac® and enjoy digital clarity from the USB connection
