

JABRA FREEWAY

Bluetooth® Wireless In-car Speakerphone
Works with any Bluetooth® enabled phone*

DATASHEET

Experience a new world of sound for your in-car calls

The new Jabra FREEWAY in-car speakerphone makes hands-free calls sound better than ever – and makes controlling them effortless. It is the first in-car speakerphone to have a 3-speaker stereo system and Virtual Surround sound, which makes the audio crisper, clearer and more vibrant than ever before. And with its dual-mic technology, you can say goodbye to unwanted background noise.

The Jabra FREEWAY is extraordinarily easy to operate. That's because with the Jabra FREEWAY, voices are in control. To start with, voice guidance will talk you through setup and pairing. After that, it will announce the name of the incoming callers, ask if you want to accept their calls and will tell you battery level and connection status. You then simply use your own voice to make, answer, end, redial or reject calls - while keeping both hands safely on the wheel.

If you use two mobile phones, don't worry. The Jabra FREEWAY will pair with both simultaneously. And there is no need to press buttons to turn the Jabra FREEWAY on or off. It automatically turns on when you get into your car and off when you get out.

Reasons to choose the Jabra FREEWAY

- Supreme audio with 3 speakers, Virtual Surround sound and noise reduction
- Make and answer calls using just your voice
- Turns off and on automatically

* Phone dependent

Tap to turn volume up one or down | F On/off power switch |
| C Mute button | G Micro USB charging port |
| D Voice command button
Press to activate voice features | H Charging indicator light |

Quick Start Guide

Charging your in-car speakerphone

Charge your Jabra FREEWAY until the red Charging Indicator light turns off

Turning your headset on and off

Slide the on/off switch into the "On" position. When in the "On" position the built-in motion sensor will automatically turn the Jabra FREEWAY on and off when you enter and leave your car

Pairing the headset with your phone

1. Activate Bluetooth on the phone
2. When you turn on your Jabra FREEWAY for the first time, the in-car speakerphone will automatically start up in pairing mode and begin to tell you what to do next. If you have disabled Voice Guidance go to the Bluetooth menu on your phone and search for new devices. Choose Jabra FREEWAY
3. Press 'Yes' or 'OK' on the phone and confirm with PIN code 0000 (4 zeros)
4. Your phone will confirm when the pairing is complete and Jabra FREEWAY will tell you that you are connected
5. For later pairing tap the Voice command button and wait for Jabra FREEWAY to say "Say a command!". Then say "Pair new device" and follow the instructions. If you have disabled Voice Guidance press and hold the Answer/end button while you slide the power switch into the On position to put the Jabra FREEWAY in pairing mode.

Using your in-car speakerphone

When you have an incoming call, you will hear "Call from": Say "Answer" to accept the call or "Ignore" to reject it. You can also tap the answer/end button to accept and double tap to reject incoming calls

You place a call by tapping the Voice button. Wait for the Jabra FREEWAY to say "Say a command!". Then you can say "Phone commands" to activate voice dial on your phone*, you can say "Redial" to redial the last number you called or "Call back" to call back the last call you received on the Jabra FREEWAY

Install it in your car

Use the metal clip on the back of the in-car speakerphone to attach it to your sun visor. That's all the installation needed. You are now ready to drive responsibly

Features and Specifications

1. Industry leading rich and crisp sound with 3 speakers and Virtual Surround Sound
2. Keep your conversations clear with an acoustically optimized design featuring dual microphones, echo and wind noise cancellation
3. Turns on and off automatically using the built-in motion sensor
