

Compatible with VXi, Plantronics® or GN Netcom® amplifiers and cords!

VXi Passport® 20

The Passport 20 headset offers you a choice of quick disconnect styles for compatibility with VXi, Plantronics or GN Netcom amplifiers or cords for easy integration in the contact center.

The noise-canceling microphone blocks out the sound of surrounding agents for a more professional sounding call.

The comfortable fit means all-day-wear is stress free. Made with the same impact resistant plastic used in sports equipment to withstand the intense requirements of the contact center.

Available in Three Different Models

If you have a:

Pair with this model:
