PA50™ Wireless Mic

The PA50 wireless mic is included with the Calisto 825-M/P835-M speakerphone system and is an optional accessory for the Calisto 820-M and 830-M. The wireless mic provides unparalleled freedom of movement and optimal voice transmission.

1: Setup

⚠ Disconnect all cables from the Calisto base. Insert wireless mic docking station firmly into the slots at the bottom of the base.

Reconnect all cables. Place the wireless mic in the docking station and charge it for a minimum of 2 hours or until the Calisto screen indicates the mic is fully charged.

2: Wearing and use

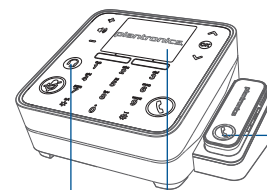

The wireless mic can be worn on a collar or lapel, see diagram for optimal location.

The wireless mic can also be placed flat on a table for flexible small group conferencing. It provides 360-degree microphone coverage.

Talk time: Up to 5 hours
Maximum range: Up to 45 feet/12 metres

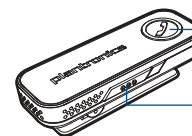

3: Features

Once undocked, press the  key on the wireless mic to replace the built-in speakerphone microphone.

When the wireless mic is active, the  is displayed on screen and the built-in speakerphone microphone is turned off.

To transfer a call from the wireless mic to the speakerphone and back, press  on the speakerphone.

Talk/End key: Press with one tap to answer or end a call. The key is green when you have an incoming call, red when you are on a call.

Mute/Unmute keys: Press red key on both sides. The keys light up red when a call is muted.

FCC Requirements Part 15

DECLARATION OF CONFORMITY

We Plantronics, 345 Encinal Street Santa Cruz, California, 95060 USA (800) 544-4660 declare under our sole responsibility that the products P820, P820-M, P830, P830-M, and 835-M comply with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on another circuit.
4. Consult the dealer or an experienced radio/TV technician for help.

FCC REGISTRATION INFORMATION — Part 68

This equipment complies with Part 68 of the FCC rules and the requirements adopted by ACTA. On the exterior of this equipment is a label that contains a product identifier in the format US:AAAEQ##TXXXX. If requested, this information must be provided to your telephone company. A plug and jack used to connect this equipment to the premises wiring and telephone network must comply with the applicable FCC Part 68 rules and requirements adopted by ACTA. A compliant telephone cord and modular plug is provided with this product. It is designed to be connected to a compatible jack that is also compliant. See installation instructions for details. The REN is useful to determine the quantity of devices you may connect to your telephone line. Excessive RENs on a telephone line may result in the devices not ringing in response to an incoming call. In most, but not all areas, the sum of the RENs should not exceed five (5.0). To be certain of the number of devices you may connect to your line, as determined by the REN, contact your local telephone company. For products approved after August 8, 2001, the REN for this product is part of the product identifier that has the format US:AAAEQ##TXXXX. The digits represented by ## are the REN without the decimal point. (For example, 03 represents a REN of 0.3.) For earlier producers, the REN is separately shown on the label. If this telephone equipment causes harm to the telephone network, the telephone company will notify you in advance that temporary discontinuance of service may be required. But if advance notice isn't practical, the telephone company will notify the customer as soon as possible. Also, you will be advised of your right to file a complaint with the FCC if you believe it is necessary. The telephone company may make changes in its facilities, equipment, operations, or procedures that could affect the proper functioning of your equipment. If they do, you will be notified in advance in order for you to make necessary modifications to maintain uninterrupted service. If trouble is experienced with this unit, for repair or warranty information, please contact customer service at (800) 544-4660. If the equipment is causing harm to the network, the telephone company may request that you disconnect the equipment until the problem is resolved.

DO NOT DISASSEMBLE THIS EQUIPMENT: it does not contain any user-serviceable components. We recommend the installation of an AC surge arrester in the AC outlet to which this equipment is connected. Telephone companies report that electrical surges, typically lightning transients, are very destructive to customer terminal equipment connected to AC power sources.

Exposure to RF Radiation

The internal wireless radio operates within the guidelines found in radio frequency safety standards and recommendations, which reflect the consensus of the scientific community. Independent studies have shown that the internal wireless radio is safe for use by consumers. Visit plantronics.com for more information. In order to comply with FCC RF Exposure requirements, the base must be installed and operated such that a minimum separation distance of 20 cm is maintained between the base and all persons during normal operation. The Microphone Clip complies with FCC radiation exposure limits set forth for an uncontrolled environment.

NOTE: Modifications not expressly approved by Plantronics, Inc. could void the user's authority to operate the equipment.

Industry Canada Regulatory Information

This product meets the applicable Industry Canada technical specifications/Le présent matériel est conforme aux spécifications techniques applicables d'Industrie Canada.

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Optimaalinen äänentoisto

Koko käyttöopas on saatavilla osoitteessa www.plantronics.com/calisto800

Langaton PA50™-mikrofoni

Langaton PA50-mikrofoni toimitetaan Calisto 825-M/P835-M-kaiutinpuhelinjärjestelmän mukana ja se on lisävaruste Calisto 820-M ja 830-M malleissa. Langaton mikrofoni antaa vapauden liikkua ja tarjoaa parhaan mahdollisen äänensiirron.

1: Asennus

⚠ Irrota kaikki johdot Calisto-tukiasemasta. Aseta langattoman mikrofonin telakointiasema lujasti tukiaseman pohjassa oleviin aukkoihin.

Kytke kaikki johdot uudelleen. Aseta langaton mikrofoni telakointiasemaan ja lataa sitä vähintään kahden tunnin ajan tai kunnes Caliston näyttö osoittaa, että mikrofoni on ladattu täyteen.

2: Käyttö

Langatonta mikrofonia voi pitää kauluksessa tai kauluskäänneessä. Katso sopivin sijainti kaaviosta.

Kun langattoman mikrofonin asetta vaakatasoon pöydälle, sitä voi käyttää pienen ryhmän neuvotteluun. Mikrofonin toiminta-alue on 360 astetta.

Puheaika: enintään 5 tuntia
Kuuluvuusalue: enintään 12 metriä

3: Ominaisuudet

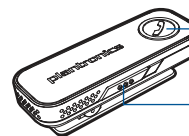

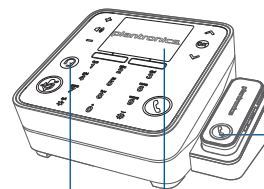

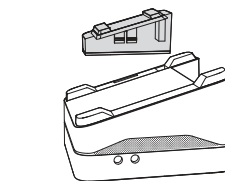

Kun langaton mikrofoni on pois telakasta, korvaa kaiutinpuhelimien sisäänrakennettu mikrofoni painamalla langattoman mikrofonin -näppäintä.

Kun langaton mikrofoni on aktiivinen, näytössä näkyy -kuvake ja kaiutinpuhelimien sisäänrakennettu mikrofoni suljetaan.

Voit siirtää puhelun langattomasta mikrofonista kaiutinpuheliimeen ja takaisin painamalla kaiutinpuhelimien -näppäintä.

Puhe-/lopetusnäppäin: vastaa puheluun tai lopeta puhelu painamalla kerran. Näppäin on vihreä, kun kyseessä on saapuva puhelu ja punainen, kun puhelu on käynnissä.

Mykistys-/mykistyksen poistonäppäin: paina punaista näppäintä molemmilla puolilla. Näppäimissä näkyy punainen valo, kun puhelu on mykistetty.

PA50™ – Schnurloses Mikrofon

Das schnurlose Mikrofon PA50 ist im Lieferumfang des Calisto 825-M/P835-M enthalten und als optionales Zubehör für das Calisto 820-M und 830-M erhältlich. Das schnurlose Mikrofon ermöglicht mehr Bewegungsfreiheit und eine optimale Sprachübertragung.

1: Installation

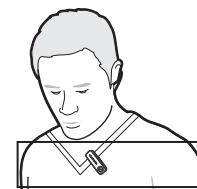

⚠ Trennen Sie alle Kabel von der Calisto-Basisstation. Setzen Sie die Ladestation des schnurlosen Mikrofons fest in die dafür vorgesehenen Öffnungen an der Unterseite der Basisstation.

Schließen Sie alle Kabel wieder an. Setzen Sie das schnurlose Mikrofon in die Ladestation und laden Sie es für mindestens 2 Stunden auf oder solange bis der Bildschirm des Calisto anzeigt, dass das Mikrofon vollständig aufgeladen ist.

2: Tragevarianten und Verwendung

Das schnurlose Mikrofon kann am Kragen oder am Revers getragen werden (siehe Diagramm für optimale Platzierung).

Das schnurlose Mikrofon kann auch auf einem Tisch platziert werden (für Konferenzen in kleinen Gruppen). Das Mikrofon hat einen Erfassungsbereich von 360 Grad.

Sprechzeit: bis zu 5 Stunden
Maximale Reichweite: bis zu 12 Meter

3: Funktionen

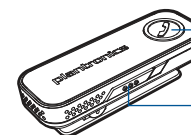

Nehmen Sie das schnurlose Mikrofon aus der Ladestation und drücken Sie die Taste , um das integrierte Mikrofon des Calisto zu ersetzen.

Wenn das schnurlose Mikrofon aktiviert ist, wird  auf dem Bildschirm angezeigt und das integrierte Mikrofon des Calisto ist ausgeschaltet.

Drücken Sie  am Calisto, um während eines Anrufs vom schnurlosen Mikrofon zum Lautsprecher zu wechseln und umgekehrt.

Gesprächstaste: Drücken Sie die Taste einmal, um einen Anruf anzunehmen oder zu beenden. Die Taste leuchtet grün bei eingehenden Anrufen und rot während eines Gesprächs.

Taste für Mikrofonstummschaltung: Drücken Sie die rote Taste auf beiden Seiten. Die Tasten leuchten rot wenn ein Anruf stummgeschaltet ist.

Die vollständige Bedienungsanleitung finden Sie unter www.plantronics.com/calisto800.

Microfone Sem Fios PA50™

O microfone sem fios PA50 vem incluído com o sistema de altifalantes Calisto 825-M/P835-M e é um acessório opcional para os modelos Calisto 820-M e 830-M. O microfone sem fios proporciona uma liberdade de movimentos incomparável e uma excelente transmissão de voz.

1: Configuração

⚠ Desligue todos os cabos da base do Calisto. Introduza o suporte do microfone sem fios com firmeza nas ranhuras da parte inferior da base.

Volte a ligar todos os cabos. Coloque o microfone sem fios no suporte e carregue-o durante pelo menos duas horas ou até que o ecrã do Calisto indique que o microfone está completamente carregado.

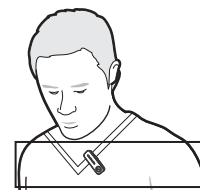

2: Modo de colocação e utilização

O microfone sem fios pode ser utilizado no colarinho ou na lapela. Consulte o diagrama para saber qual a localização ideal.

O microfone sem fios também pode ser colocado em cima de uma mesa para conferências de pequenos grupos flexíveis. Este microfone proporciona uma cobertura de 360 graus.

Tempo de conversação: até 5 horas
Alcance máximo: até 12 metros

3: Características

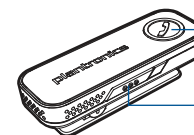

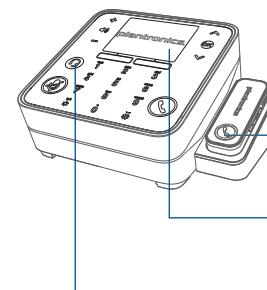

Com o microfone sem fios fora do suporte, prima a tecla para substituir o microfone incorporado do altifalante.

Quando o microfone sem fios está activo, aparece no ecrã e o microfone incorporado do altifalante é desactivado.

Para transferir uma chamada do microfone sem fios para um altifalante e vice-versa, prima no altifalante.

PA50™ trådløs mikrofon

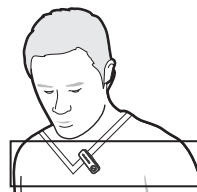

PA50 trådløs mikrofon følger med Calisto 825-M/ Calisto 835-M højtalertelefonssystemet og er valgfrit tilbehør til Calisto 820-M og 830-M. Den trådløse mikrofon giver fantastisk mulighed for fri bevægelighed og optimal stemmetransmission.

1: Installation

⚠ Tag alle kabler ud af Calisto-baseenheden. Sæt dockingstationen til den trådløse mikrofon godt fast i åbningerne i bunden af baseenheden.

Tilslut alle kabler igen. Sæt den trådløse mikrofon i dockingstationen, og oplad den i mindst 2 timer, eller indtil Calisto-skærmen angiver, at mikrofonen er fuldt opladet.

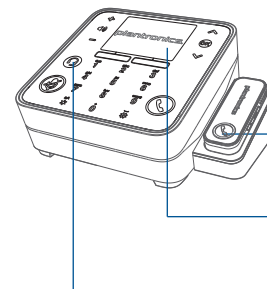

2: Anvendelse og bærestil

Den trådløse mikrofon kan bæres på en krave, en skjorteflip eller en revers, se den optimale placering på tegningen.

Den trådløse mikrofon kan også placeres fladt på et bord som en fleksibel løsning ved telekonferencer med få deltagere. Den giver 360 graders mikrofondækning.

Taletid: Op til 5 timer

Maks. rækkevidde: Op til 12 meter

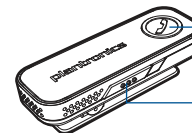

3: Funktioner

Når den først er taget ud af docken, skal du trykke på tasten  på den trådløse mikrofon for at erstatte den indbyggede højtalertelefon.

Når den trådløse mikrofon er aktiv, vises  på skærmen, og den indbyggede højtalertelefon slås fra.

For at overføre et opkald fra den trådløse mikrofon til højtalertelefonen og omvendt, skal du trykke på  på højtalertelefonen.

Besvar/afslut-knappen: Tryk en enkelt gang for at besvare eller afslutte et opkald. Tasten er grøn, når du modtager et indgående opkald, og rød, når du er i gang med en samtale.

Lyd fra/til-taster: Tryk på den røde tast på begge sider. Tasterne lyser rødt, når lyden fra mikrofonen er slået fra i forbindelse med et opkald.

Draadloze microfoon PA50™

De draadloze microfoon PA50 bevat het Calisto 825-M/P835-M-speakerphone-systeem en is een optioneel accessoire voor de Calisto 820-M en 830-M. De draadloze microfoon zorgt voor een ongeëvenaarde bewegingsvrijheid en optimale stemtransmissie.

1: Installatie

⚠ Koppel alle kabels los van de Calisto-basis. Sluit het basisstation van de draadloze microfoon goed aan op de sleuven onder aan de basis.

Sluit alle kabels opnieuw aan. Plaats de draadloze microfoon in het basisstation en laad deze minimaal 2 uur op of totdat op het display van de Calisto wordt aangegeven dat de microfoon volledig is opgeladen.

2: Dragen en gebruiken

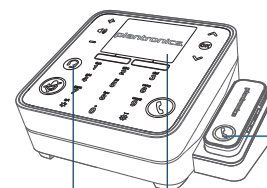

U kunt de draadloze microfoon dragen op uw kraag of revers. Raadpleeg het schema voor de optimale plaatsing.

De draadloze microfoon kan ook vlak op een tafel worden gelegd voor flexibele vergaderingen met kleine groepen. De microfoon biedt 360 graden dekking.

Gesprekstijd: maximaal 5 uur
Maximumbereik: maximaal 12 meter

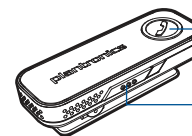

3: Functies

Wanneer de microfoon zich niet op het basisstation bevindt, drukt u op de toets op de draadloze microfoon om de ingebouwde microfoon van de speakerphone te vervangen.

Wanneer de draadloze microfoon actief is, wordt op het scherm het pictogram weergegeven en wordt de ingebouwde microfoon van de speakerphone uitgeschakeld.

Als u een oproep van de draadloze microfoon wilt doorschakelen naar de speakerphone of andersom, drukt u op de speakerphone.

Toets voor het aannemen/beëindigen van gesprekken: tik eenmaal op de knop om een oproep te beantwoorden of beëindigen. De toets is groen wanneer u wordt gebeld en rood wanneer u in gesprek bent.

Toets voor mute in-/uitschakelen: druk aan beide zijden op de rode toets. De toetsen branden rood wanneer tijdens een gesprek mute is ingeschakeld.

PA50™ trådløs mikrofon

Den trådløse mikrofonen PA50 er inkludert med høyttalertelefonssystemet Calisto 825-M/P835-M, og den er valgfritt tilbehør for Calisto 820-M og 830-M. Den trådløse mikrofonen gir uslåelig bevegelsesfrihet og optimal stemmeoverføring.

1: Oppsett

⚠ Koble fra alle kablene fra Calisto-baseenheten. Sett inn trådløs dokkingstasjon for mikrofon i hullene under baseenheten.

Koble til alle kablene igjen. Plasser den trådløse mikrofonen i dokkingstasjonen og lad den i minst 2 timer eller til Calisto-skjermen angir at mikrofonen er fulladet.

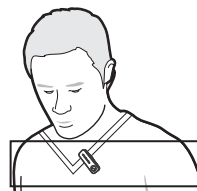

2: Bruk

Den trådløse mikrofonen kan festes på en krage eller et jakkeslag. Se diagrammet for best mulig plassering.

Den trådløse mikrofonen kan også legges flatt på et bord for fleksible konferanser i små grupper. Mikrofonen har 360 graders dekning.

Taletid: opptil 5 timer

Rekkevidde, maksimum: opptil 12 meter

3: Funksjoner

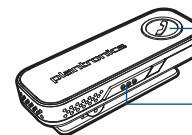

Når den trådløse mikrofonen ikke er plassert i basen, trykker du på -knappen på mikrofonen for å bytte fra den innebygde mikrofonen i høyttalertelefonen.

Når den trådløse mikrofonen er aktiv, vil  vises på skjermen, og den innebygde mikrofonen i høyttalertelefonen er slått av.

Trykk på  på høyttalertelefonen for å overføre en samtale fra den trådløse mikrofonen og høyttalertelefonen (eller motsatt).

Svar- og Avslutt-knappen: Trykk en gang for å svare eller avslutte en samtale. Knappen er grønn når du får en innkommende samtale, og rød når du er i en samtale.

Dempe / oppheve demping-knapper: Trykk på rød knapp på begge sider. Knappene lyser rødt når en samtale er dempet.

PA50™ trådlös mic

Den trådlösa PA50-mikrofonen ingår i högtalartelefonsystemet Calisto 825-M/P835-M och är ett tillbehör till Calisto 820-M och 830-M. Den trådlösa mikrofonen ger enastående rörelsefrihet och optimal röstöverföring.

1: Konfiguration

⚠ Koppla ur alla sladdar från Calisto-basstationen. För in dockningsstationen för den trådlösa mikrofonen ordentligt i fästet längst ner på basenheten.

Anslut alla sladdar igen. Placera den trådlösa mikrofonen i dockningsstationen och ladda den i minst två timmar eller tills Calisto-skärmen anger att mikrofonen är fulladdad.

2: Bärstil och användning

Den trådlösa mikrofonen kan bäras på krage eller slag, se diagram för optimal placering.

Den kan även placeras på ett bord för flexibla konferenser i små grupper. Den har 360 graders mikrofontäckning.

Samtalstid: Upp till 5 timmar
Maximal räckvidd: Upp till 12 meter/45 fot

3: Funktioner

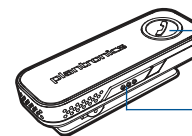

När den inte är dockad trycker du på knappen  på den trådlösa mikrofonen för att ersätta den inbyggda högtalartelefonmikrofonen.

När den trådlösa mikrofonen är påslagen visas  på skärmen och den inbyggda högtalartelefonmikrofonen stängs av.

Tryck på  på högtalartelefonen för att koppla vidare ett samtal från den trådlösa mikrofonen till högtalartelefonen och tillbaka.

Knappen Talk/End (prata/avsluta): Tryck en gång för att svara på eller avsluta ett samtal. Knappen är grön när du har ett inkommande samtal och röd när du är upptagen med ett samtal.

Knapparna Mute/Unmute (ljud på/av): Tryck på den röda knappen på båda sidor. Knapparna är röda när ett samtal tystas.
