Avaya AWH-75 Wireless Office Headset System

Communicate in executive-level style and all-day comfort with the Avaya AWH-75 Wireless Office Headset System. The lightweight sophisticated over-the-ear design and DECT 6.0 technology provide office workers with ultra-comfortable, digitally-secure communication up to 300 feet from their desk phone. The discreet Voice Tube delivers superior audio clarity.

Freedom From Your Desk

- The Avaya AWH-75 is a next generation wireless headset system that lets workers take the conversation wherever they need to go – up to 300 feet from the base unit.

Stylish, Lightweight and Comfortable

- With a smaller form factor, the AWH-75 is lightweight, with an over-the-ear design that's comfortable to wear all day long.

Crystal Clear, Secure Conversations

- The AWH-75 Supports voice dedicated DECT 6.0 technology for clear and more secure communications. The patented voice tube provides discreet style and convenience with superior voice clarity.

All Day Freedom and Convenience

- Six hours of talk time makes it easy to stay connected. It includes a battery that recharges 80% in just 1.5 hours; there's no overnight wait.

Integration with Avaya Deskphones

- The AWH-75 features integrated switch hook control with most Avaya digital and IP telephones. This allows workers to answer calls and end them, even when away from their desks. All with a simple touch of a button.*

AWH75 Key Features

- Talk Time Approximately 6 hours
- Range Up to 300 feet
- Operating Frequency Voice-dedicated DECT 6.0
- Security/Privacy 64-bit digital encryption
- Headset Microphone Voice Tube
- Headset Weight 0.75 oz

- 9620, 9630 (with 9600 series hookswitch control cord)
- 6416D+M, 6424D+M

Avaya Headset Guarantee

To help ensure that Avaya products provide our customers with the highest levels of safety and quality, Avaya supports only those headsets and headset adapters that carry an Avaya brand or logo.

Avaya headsets and headset adapters are designed to work in concert with Avaya terminals to protect customers from electrical and acoustic shock. While it is possible for a non-Avaya headset to achieve a satisfactory level of customer safety, Avaya's formal testing and Declaration of Conformity are provided only for the headsets that carry the Avaya brand or logo. As a result, Avaya makes no representations regarding whether a particular non-Avaya headset will work with Avaya terminals.

From a technical perspective, there is no industry standard for handset interfaces. As a result, different manufacturers utilize different handset/headset interfaces with their

terminals. Indeed, the handset/headset interface in Avaya's terminals is different from that used by Avaya competitors. Any claim made by a headset vendor that its product is compatible with Avaya terminals is no guarantee that the headset will provide adequate safety protection or that the headset will not damage the terminals. In fact, some headsets have been demonstrated to cause premature failure in Avaya terminals. Unfortunately, this damage can be the result of repeated use and not something that would be immediately obvious.

Avaya believes that our customers consider safety and quality as two essential priorities when selecting products and support services from a telecommunications vendor. Therefore, Avaya supports use of only those headsets, which carry an Avaya brand or logo.

About Avaya

Avaya enables businesses to achieve superior results by designing, building and managing their communications infrastructure and solutions. For over one million businesses worldwide, including more than 90 percent of the FORTUNE 500®, Avaya embedded solutions help businesses enhance value, improve productivity and create competitive advantage by allowing people to be more productive and create more intelligent processes that satisfy customers.

For businesses large and small, Avaya is a world leader in secure, reliable IP telephony systems, communications applications and full life-cycle services. Driving the convergence of embedded voice and data communications with business applications, Avaya is distinguished by its combination of comprehensive, world-class products and services. Avaya helps customers across the globe leverage existing and new networks to achieve superior business results.
