EXTREME NOISE CANCELLATION

Jabra EXTREME reduces background noise through its Noise Blackout™ Extreme technology while enhancing the natural sound of your voice.

easy   **smart** ◄   ultimate

The best noise cancellation anytime, everywhere

Building upon Jabra's renowned noise cancellation techno-logy, Jabra EXTREME utilizes Noise Blackout™ Extreme, which significantly enhances its dual microphone system. This is supported by the new advanced automatic volume control that automatically adjusts to the environment and your con-versation. These developments have led Jabra EXTREME to be remarkably 2x more effective in noisy environments (by 24dB) than the original Noise Blackout (12dB).
What will further amaze end-users is the voice quality; while Jabra EXTREME eliminates ambient noise it retains natural sounding voice on both ends of the line ensuring your conver-sation is full of life rather than a robotic exchange of words.

Jabra EXTREME's distinctive Ultimate-fit Eargel™ not only ensures a secure, comfortable fit, it also contains specially designed holes for optimum incoming sound, which adds to Jabra EXTREME's superb overall sound quality.
Reasons to choose the Jabra EXTREME

- Eliminates background noise with dual mic technology
- Clear sound in noisy environments
- All day comfort with Ultimate-fit Eargels™
