## WIDEBAND VOIP FOR SUPERB CALL CLARITY.

The Jabra GN2000 USB OC headset allows users to experience the true wideband sound of Microsoft® Office Communicator 2007. It also adds hands-free advantages, is available in both mono and duo versions, and is completely plug-and-play with Office Communicator 2007.

### VOIP WITH SUPERB CALL CLARITY

Headset used in a real-time VoIP or video call has a significant impact on the quality of the call. The Jabra GN2000 USB OC headset will enhance your experience with Microsoft® Office Communicator 2007 by providing full wideband audio capability.

While other so-called "wideband" headsets cut-off around 4,000 Hz, the Jabra GN2000 USB OC headset provides a full frequency response up to 6,800 Hz for optimum call clarity resulting in significantly less need to ask customers to repeat themselves.

The Jabra GN2000 USB OC headset is fully compliant with TIA-920 specifications for wideband digital sound and features a noise-canceling microphone for the noisy office environment. PeakStop™ technology, eliminates sudden spikes such as "fax squeal" and loud noises above 118 dB SPL.

### ENHANCED EXPERIENCE - EASE OF USE

The Jabra GN2000 USB OC for Microsoft® Office Communicator 2007 is a true plug-and-play solution. Much simpler than a handset or desk phone, the Jabra GN2000 USB OC headset has an in-line hook switch control to answer and end calls.

In-line volume controls adjust the headset speakers to a comfortable level and to mute the headset simply press the mute button.

The Jabra GN2000 USB OC headset works with Microsoft® Office Communicator 2007 without requiring any additional software including drivers. Just plug and play.

OPTIMIZED FOR  
Microsoft®  
Office Communicator

### SAFETY

The GN2000 Series meets the electric strength test and impulse test requirements of the international standard IEC 60950-1. It also meets EN 60950, AS/NZS3260, and UL 60950 standards.

### DESIGNED TO PERFORM. BUILT TO LAST.

Discover the exceptional comfort of an ergonomically designed headset for professional use.

The Jabra GN2000 USB OC is based on technology from the Jabra GN2000 series, which has proven its worth in offices and contact centers all over the world.

Pivoting leatherette ear cushions provide exceptional comfort and automatically adjust to the shape and angle of individual ears. The leatherette ear cushions also provide better acoustical coupling, ensuring a rich incoming signal.

Jabra headsets are made of impact-resistant materials that are

strong and resilient to keep the headset firmly, yet comfortably in place throughout the workday.

### SYSTEM REQUIREMENTS

The Jabra GN2000 MONO OC headset works with Microsoft® Office Communicator 2007 without requiring any additional software including drivers. Just plug the headset into your PC USB port.

### WHAT'S IN THE BOX

- Jabra GN2000 USB OC headset with flexible noise-canceling boom featuring over-head wearing style with leatherette ear cushions and additional leatherette cushions as an accessory.
- Installation guide.
