DISCOVER FREEDOM WITH JABRA

Discover freedom with a wireless Jabra headset optimized for your desk phone!

Jabra Electronic Hook Switch (EHS) provides a solution that enable remote operation, e.g. answer/end functions, of compatible Jabra wireless headsets with various phones, thus eliminating the need for a mechanical handset lifter.

WHY EHS?

As mobility within the working environment continues to increase, it is vital that employees have business tools that enable them to work efficiently regardless of location. With an EHS solution they can

roam within the facility and still do business on the spot! Jabra wireless headsets with EHS functionality boost productivity as they provide the user with the ability to answer and end a call, while away from their desk.

The EHS adapter allows the user to:

- Hear ring tones
- Answer and end calls
- Adjust the volume
- Mute the microphone

All from your headset

All quite convenient, when you are up to 150 meters away from your desk!

WHY JABRA HEADSETS?

Jabra headsets are more ergonomic and convenient to use, enhancing flexibility and the ability to multitask with maximum efficiency. Once you discover the benefits of hands-free telephony, you never want to go back to traditional handsets.

FREEDOM FOR ALL

Jabra headsets allow you to search for documents, make copies or enter data on your PC while talking to a customer. With a wireless headset you can enjoy freedom of movement up to 150 meters away from your desk. As a result you can provide better service and use time more effectively by reducing the call-back rate. Conference calls are a growing part of communication with colleagues and partners. A wireless headset with mute functionality allows you to stretch your legs and walk around during a long call without background noise interfering with the call.

HANDS-FREE EFFICIENCY

Multitask with maximum efficiency; find documents or information to solve customer issues while on a call.

✓ WIRELESS MOBILITY

Move up to 150 meters away from your desk.

✓ COMFORT AND ERGONOMICS

Headsets prevent aching muscles and neck strain.

✓ SAFE AND SECURE

PeakStop™ technology protects users hearing from sudden loud noises. Tested for safety of radiated emissions. Encrypted voice calls in wireless headsets.

✓ SOUND ECONOMICS

Improvement in employee productivity significantly outweighs the headset costs. Do your own calculation on how soon your headset will have earned itself with the Jabra ROI calculator: www.jabra.com/roi

Jabra EHS Adapter

JABRA HEADSETS WITH EHS CAPABILITIES

Jabra offers a range of EHS enabled headsets designed for different needs and situations in offices and contact centers. Lightweight design and multiple wearing styles provide exceptional comfort. Jabra has won numerous prizes for both design and functionality.

Jabra EHS enabled headsets work with desk phones from the world's leading phone manufacturers – including Aastra, Alcatel-Lucent, Avaya, Cisco, Nortel, Polycom, Shoretel, Siemens, Snom and Toshiba.

¹ Jabra PRO 9400 Series headsets, Jabra GO 660 and Jabra GO 6430 provide EHS via Bluetooth® connection with Aastra 6739i

SET UP INFORMATION

To connect your Aastra phone and Jabra headset with the DHSG cable, just follow these simple steps:

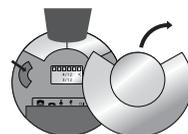

SETTING UP THE AASTRA IP PHONE

1. Plug the single end of the Y cable in the headset socket on the phone's acoustic adaptor
2. Connect the large plug in the other end to the AUX port on the headset base
3. Plug the smaller RJ9 in the normal phone socket on the headset base

Setting up Jabra PRO™ 9400 and Jabra GO™ 6400 – follow the guide on page 24.

SETTING UP JABRA GN9350e

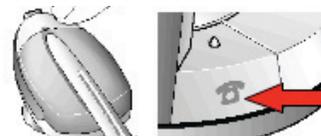

1. Open the cover on the base unit.
2. On the LCD display, navigate to the handset picture.
3. Navigate to the DHSG mode and select it by pressing the OK button.
4. Set Compatibility selector in position "A".

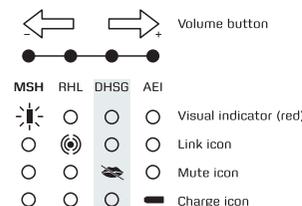

Compatibility selector Jabra GN9350e

SETTING UP JABRA GN9330e

1. Place headset on base station.
2. Push simultaneously 5 sec on the 2 buttons (base station and headset – see illustrations next column)
3. LED on headset starts to blink rapidly
4. Choose EHS mode with volume control on headset. LEDs on base indicates selected mode: LED 2: DHSG mode
5. After setting wait a few seconds. When LED on headset stops blinking, start using headset.

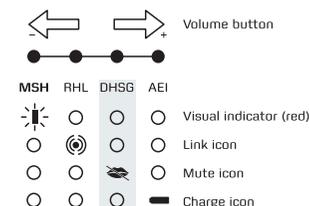

Setting up Jabra GN9330e

SETTING UP JABRA GN9120 EHS/ JABRA GN9125

1. Set compatibility selector (Telephone Termination Switch Wheel) in position "A"
2. Set the base unit to the DHSG mode by keeping the headset in the base and hold the volume +/- buttons on the headset for 6 seconds until the red light on the base flashes rapidly.
3. Scroll through the four different settings using +/- and set to the lips icon. Leave for 15 seconds until the unit has displayed the confirmation flash sequence and it is ready to go!

¹ MSH enabled model

SET UP INFORMATION

To connect your Alcatel-Lucent phone and Jabra headset with the MSH cable, just follow these simple steps:

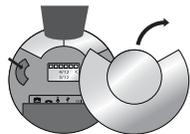

Jabra headset base and Alcatel 8+9 Series.

Setting up Jabra PRO™ 9400 and Jabra GO™ 6400 – follow the guide on page 24.

SETTING UP JABRA GN9350e

1. Open up the cover on the base unit.
2. On the LCD display, navigate to the handset picture.
3. Navigate to the MSH mode and select it by pressing the OK button.
4. Set Compatibility selector in position “A”

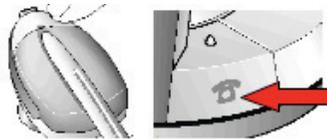

Compatibility selector Jabra GN9350e

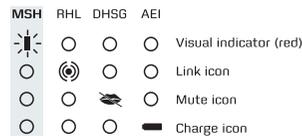

SETTING UP JABRA GN9330e

1. Place headset on base station.
2. Push simultaneously 5 sec on the 2 buttons (base station and headset – see illustrations next column)

3. LED on headset starts to blink rapidly
4. Choose EHS mode with volume control on headset. LEDs on base indicates selected mode: LED 4: MSH mode
5. After setting wait a few seconds. When LED on headset stops blinking, start using headset.

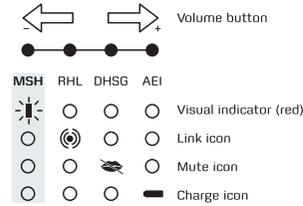

Setting up Jabra GN9330e

SETTING UP JABRA GN9120 EHS/ JABRA GN9125

1. Set compatibility selector (Telephone Termination Switch Wheel) in position “A”
2. Set the base unit to the MSH mode by keeping the headset in the base and hold the volume +/- buttons on the headset for 6 seconds until the red light on the base flashes rapidly.
3. Scroll through the four different settings using +/- and set to the lips icon. Leave for 15 seconds until the unit

has displayed the confirmation flash sequence and it is ready to go!

TO INSTALL YOUR JABRA LINK™ 14201-20 EHS ADAPTER WITH YOUR ALCATEL PHONE:

SETTINGS:

1. Install your headset solution to your desk phone according to the headset manual.
2. Set “Clear dial tone switch” in “A” position – see headset manual.
3. Ensure your headset base unit EHS mode is set up to DHSG - see headset manual*.

CONNECTIONS:

4. With the cable included with your headset system, connect the phone socket on your headset base unit to the phone socket on your Jabra LINK EHS Adapter.
5. With the cable marked white D, connect the Headset / Handset socket on your Jabra LINK EHS Adapter to the 3.5 mm headset socket on the side of your desk phone.

6. With the cable marked orange A, connect the COM socket on your Jabra LINK EHS Adapter to the modular socket on your desk phone marked with a “Bell” icon.
7. With the cable marked red, connect the AUX socket on your headset base unit to the Jabra LINK EHS Adapter AUX socket.

Alcatel cables	
EE4028	- Cable marked: D White
EE4038	- Cable marked: Red
EE4068	- Cable marked: A Orange
	- Telephone cord ¹

Note: The marked end of each cable must be connected to the Jabra LINK EHS adapter.

USING DICTAPHONE OUTPUT

The dictaphone output can be used to record a conversation in both directions. A 2.5 mm jack to 3.5 mm jack cable is not included but can be ordered as an accessory (Part Number 14201-21).

CLEANING THE JABRA LINK EHS ADAPTER

Only use a soft – and, if necessary, slightly damp – cloth for cleaning the Jabra LINK EHS Adapter. Do not use any solvents or cleansing agents as these can damage the finish of the Jabra LINK EHS Adapter.

¹ Jabra PRO 9400 Series headsets and Jabra GO 6470 provide EHS via Bluetooth connection with Avaya 9670G.

² Important! This desk phone EHS solution utilizes the USB port on the Jabra GN9350e and the Jabra GN9330e USB product. Connection to PC not possible simultaneously.

³ EHS only with Jabra GN9350e and Jabra GN9330e USB

UNIStim firmware release 3.1 for IP Phones is available for download from the "Software Download" link under "Support and Training" on the Nortel website located at: <http://support.nortel.com>. The firmware is available by phone model under "Phones, Clients and Accessories". These firmware loads have not been introduced as the default loads for the IP Phones shipped from Nortel, and must be installed by your system administrator.

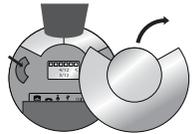

SET UP INFORMATION

To connect your Avaya phone and Jabra headset with the Jabra LINK™ 14201-19 EHS adapter, just follow these simple steps.

Setting up Jabra PRO™ 9400 and Jabra GO™ 6400 – follow the guide on page 24.

SETTING UP JABRA GN9350e

1. Open up the cover on the base unit.
2. On the LCD display, navigate to the handset picture.
3. Navigate to the DHSG mode and select it by pressing the OK button.
4. Set Compatibility selector in position “A”.

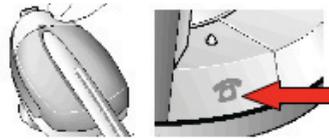

Compatibility selector Jabra GN9350e

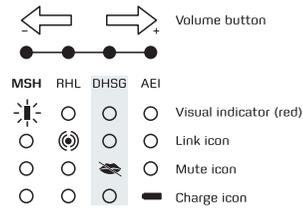

SETTING UP JABRA GN9330e

1. Place headset on base station.
2. Push simultaneously 5 sec on the 2 buttons (base station and headset – see illustrations next column)
3. LED on headset starts to blink rapidly
4. Choose EHS mode with volume control on headset. LEDs on base indicates selected mode: LED 2: DHSG mode

5. After setting wait a few seconds. When LED on headset stops blinking, start using headset.

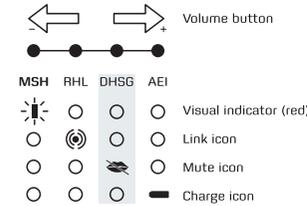

Setting up Jabra GN9330e

SETTING UP JABRA GN9120 EHS/ JABRA GN9125

1. Set compatibility selector (Telephone Termination Switch Wheel) in position “A”
2. Set the base unit to the DHSG mode by keeping the headset in the base and hold the volume +/- buttons on the headset for 6 seconds until the red light on the base flashes rapidly.
3. Scroll through the four different settings using +/- and set to the lips icon. Leave for 15 seconds until the unit has displayed the confirmation flash sequence and it is ready to go!

TO INSTALL YOUR JABRA LINK™ 14201-20 EHS ADAPTER WITH YOUR AVAYA PHONE:

SETTINGS:

4. Install your headset solution to your desk phone according to the headset manual.
5. Set “Clear dial tone switch” in “A” position - see headset manual.
6. Ensure your headset base unit EHS mode is set up to DHSG – see headset manual¹.

CONNECTIONS:

7. With the cable included with your headset system, connect the phone socket in your headset base unit to the phone socket on your Jabra LINK EHS Adapter.
8. With the cable marked white A, B, or C, connect the Headset / Handset socket on your Jabra LINK EHS Adapter to the headset socket on your desk phone - ensure you select the right cable for your Avaya desktop phone. See the Cable Matrix section.

9. With the cable marked purple, connect the 2.5 mm jack to the ring tone detector socket in the Jabra LINK EHS Adapter, and place the ring sensor as close as possible to the ringer sound outlet on your desk phone.
10. With the cable marked red, connect the AUX socket on your headset base unit to the Jabra LINK EHS Adapter AUX socket.

Avaya cables	
2410	- Cable marked: A White
5410	- Cable marked: Purple (Jack 2.5 mm)
6416D+M	- Cable marked: B White
6424D+M	- Cable marked: Purple (Jack 2.5 mm)
	- Cable marked: Red
	- Telephone cord ¹
1608, 1616, 9608, 9611, 9620, 9621, 9630, 9640, 9641, 9650, 9670	- Cable marked: C White
	- Cable marked: Purple (Jack 2.5 mm)
	- Cable marked: Red
	- Telephone cord ¹

Note: The marked end of each cable must be connected to the Jabra LINK EHS adapter.

Note: When using the EHS adapter with Avaya phones, please note that the MFB button on your headset acts as the Master button for on- and off-hooking your telephone. This means that both devices can work independently, but the MFB may override the headset button on the telephone.

Note: For setup information on Avaya 1120E, Avaya 1140E and Avaya 1150E, please go to page 13.

¹ If your base unit does not support DHSG mode, RHL mode (Jabra default AUX mode) can be used with limited functionality between phone and base unit – which means under installation you may need to do hook ON and OFF a couple of times before phone and base/headset are in sync. For RHL mode we recommend either to use your headset or phone to answer/end calls.

¹ Important! This desk phone EHS solution utilizes the USB port on the Jabra GN9350e and the Jabra GN9330e USB product. Connection to PC not possible simultaneously.

² The Jabra GN9300e Series were verified as compatible with Nortel phones: 1120E, 1140E and 1150E in a controlled laboratory environment. Visit the Nortel website to view important legal notices about Compatible Products.

SET UP INFORMATION

To connect your Nortel phone and Jabra headset, just follow these simple steps:

SETTING UP THE NORTEL PHONE

1. In the "Preferences" menu, choose "Headsets ..."
2. Press the "Apply" button.
3. In "Active Headset Device" select the appropriate headset type from a list of Wired, USB, or *Bluetooth* headsets.

Selection of a particular headset type fine tunes the audio to that particular headset's type. Selecting the right headset type is therefore recommended to achieve best performance.

EHS functionality operates in PC/computer mode of Jabra GN9350e, not phone mode.

SET UP INFORMATION

To install your Jabra LINK™ 14201-20 EHS adapter with your Shoretel phone:

SETTINGS:

1. Install your headset solution to your desk phone according to the headset manual.
2. Set “Clear dial tone switch” in “A” position – see headset manual.
3. Ensure your headset base unit EHS mode is set up to RHL – see headset manual*.

CONNECTIONS:

4. With the cable included with your headset system, connect the phone socket in your headset base unit to the phone socket on your Jabra LINK EHS Adapter.
5. With the cable marked white A, B, or C, connect the Headset/Handset socket on your Jabra LINK EHS Adapter to the headset socket on your desk phone - ensure you select the right cable for your Shoretel desktop phone. See the Cable Matrix section.
6. With the cable marked purple, connect the 2.5 mm jack to the ring tone detector socket in the Jabra LINK EHS Adapter, and place the ring sensor as close as possible to the ringer sound outlet on your desk phone.
7. With the cable marked red, connect the AUX socket on your headset base unit to the Jabra LINK EHS Adapter AUX socket.

CALCULATE YOUR ROI

The ROI calculator is a tool built by Jabra to make it easy for you to calculate the payback time for a headset. All you have to do is key in a few parameters (hours per day spent on the phone and average salary) and, based on this 7.5-minutes-per-hour average time saving, the tool will calculate the number of days until your customers’ companies recoup their investment.

¹ Also requires Acoustic Adapter from Siemens
This does not apply to the OpenStage 40/60/80 phones

SET UP INFORMATION

To connect your Siemens phone and Jabra headset with the Jabra EHS Adapter cable, just follow these simple steps:

SETTING UP THE SIEMENS IP PHONE

1. Plug the single end of the Y cable in the headset socket on the phone's acoustic adaptor
2. Connect the lawr RJ9 in the normal phone socket on the headset base

Setting up Jabra PRO™ 9400 and Jabra GO™ 6400 – follow the guide on page 24.

SETTING UP JABRA GN9350e

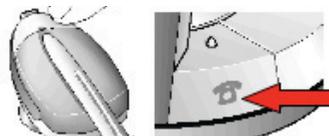

3. Open up the cover on the base unit.
4. On the LCD display, navigate to the handset picture.
5. Navigate to the DHSG mode and select it by pressing the OK button.
6. Set Compatibility selector in position "A".

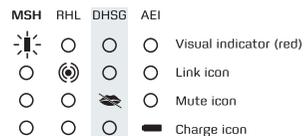

Compatibility selector Jabra GN9350e

SETTING UP JABRA GN9330e

1. Place headset on base station.
2. Push simultaneously 5 sec on the 2 buttons (base station and headset – see illustrations next column)
3. LED on headset starts to blink rapidly
4. Choose EHS mode with volume control on headset. LEDs on base indicates selected mode: LED 2: DHSG mode
5. After setting wait a few seconds. When LED on headset stops blinking, start using headset.

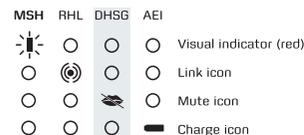

Setting up Jabra GN9330e

SETTING UP JABRA GN9120 EHS/ JABRA GN9125

1. Set compatibility selector (Telephone Termination Switch Wheel) in position "A"
2. Set the base unit to the DHSG mode by keeping the headset in the base and hold the volume +/- buttons on the headset for 6 seconds until the red light on the base flashes rapidly.
3. Scroll through the four different settings using +/- and set to the lips icon. Leave for 15 seconds until the unit has displayed the confirmation flash sequence and it is ready to go!

¹ Use non-EHS model of Jabra GN9120

SET UP INFORMATION

To install your Jabra LINK™ 14201-20 EHS adapter with your Toshiba phone:

SETTINGS:

1. Install your headset solution to your desk phone according to the headset manual.
2. Set “Clear dial tone switch” in “A” position – see headset manual.
3. Ensure your headset base unit EHS mode is set up to RHL – see headset manual*

CONNECTIONS:

4. With the cable included with your headset system, connect the phone socket in your headset base unit to the phone socket on your Jabra LINK EHS Adapter.
5. With the cable marked white A, B, or C, connect the Headset/Handset socket on your Jabra LINK EHS Adapter to the headset socket on your desk phone - ensure you select the right cable for your Toshiba desktop phone. See the Cable Matrix section.
6. With the cable marked purple, connect the 2.5 mm jack to the ring tone detector socket in the Jabra LINK EHS Adapter, and place the ring sensor as close as possible to the ringer sound outlet on your desk phone.
7. With the cable marked red, connect the AUX socket on your headset base unit to the Jabra LINK EHS Adapter AUX socket.

PLUG-AND-PLAY WITH LEADING UNIFIED COMMUNICATIONS APPLICATIONS

Unified Communications integrates technologies such as voice, email and instant messaging and facilitates enhanced productivity and collaboration by unifying and streamlining the way we communicate. Our headsets are plug-and-play with all leading Unified Communications applications.

JABRA PRO 9400 AND JABRA GO 6400 SERIES HEADSETS FEATURES A UNIQUE SCREEN-BASED SET UP SERVICE.

A SmartSetup wizard on the touch screen guides you through the simple process of connecting phones and setting up EHS functionality.

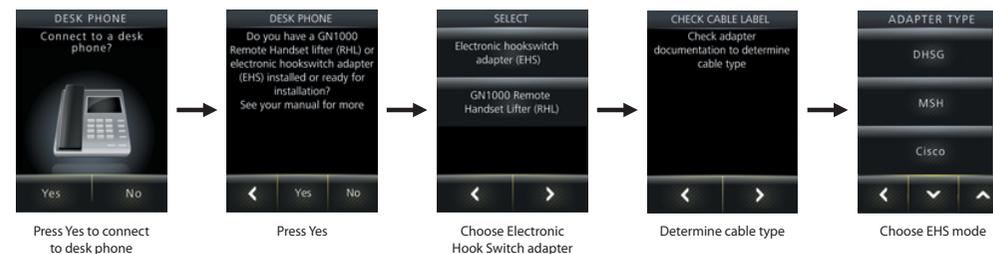

Jabra PRO 9400 and Jabra GO 6400 Series support EHS with following phone system manufacturers: Aastra, Alcatel-Lucent, Avaya, Cisco, Polycom, Shoretel, Siemens and Toshiba.

Once you're up and running, the screen's colourful icons and intuitive menu system make remote call-handling a breeze.

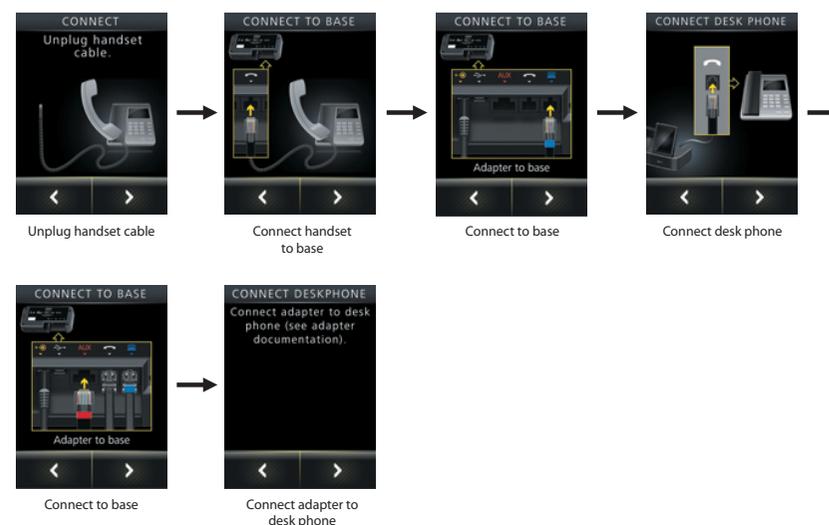

MANUFACTUROR	AASTRA	ALCATEL-LUCENT	AVAYA	CISCO	POLYCOM	SHORETEL	SIEMENS	TOSHIBA
EHS MODE	DHSG	DHSG MSH ¹	DHSG	Cisco	DHSG	RHL	DHSG	RHL

FIRST CHOOSE THE REMOTE

NOW CONNECT YOUR HEADSET TO YOUR PHONE:

The example above illustrates configuration of a Cisco-solution. The specific configuration may vary from manufacturer to manufacturer.

¹ MSH for non-EE(Extended Edition) models, used with Jabra LINK™ 14201-09
DHSG for EE models, used with Jabra LINK™ 14201-20
