

Compatible with VXi, Plantronics® or GN Netcom® amplifiers and cords!

VXi Passport® 37

Convertible Headset

Noise-canceling with your choice of wearing style

The Passport 37 convertible headset can be worn over-the-ear or over-the-head. The design is super lightweight and the quick disconnect gives you freedom to move around and multi-task without having to remove the headset when you leave your desk. Choose from three different versions for compatibility with VXi, Plantronics® or GN Netcom® amplifiers or direct connect cords.

- Noise-canceling microphone blocks out background noise for a more professional sounding call
- Available with Plantronics or GN Netcom compatible quick disconnects for easy integration into contact centers that use these brands (see chart below)
- Easy conversion between over-the-head and over-the-ear wearing styles - no tools needed
- Flexible microphone boom is easy to adjust and stays in place for proper microphone placement
- Comfortable, adjustable headband for a personal fit
- Left or right side receiver/microphone placement

Available in Three Different Models

If you have:

Pair with this model:

VXi Passport V-series amplifier or cord

Passport 37V headset
