

Hear clearly and securely.

WS-2835™ Cisco IP Phone

Clarity is proud to introduce a direct replacement Walker handset for the Cisco 7800, 8800 and DX600 series IP phones. Equipped with a single pole, single throw switch, the push-to-talk handset completes the total package for secure conversations. The Cisco IP network, coupled with Clarity's Walker PTT handset, alleviates the need to worry about compromised conversations.

- Clear static-free reception
- Electret transmitter provides extra-clear transmissions
- Hearing aid compatible
- Works with all 7800, 8800 and DX600 Series IP phones
