INCOMING CALL

MAKE SURE EMPLOYEES CAN HEAR INCOMING CALLS ON SOFTPHONES

A surprisingly large number of employees don't have speakers in their PC – so are unable to hear incoming calls ringing from softphone

Busylight UC – a tailor made ringer for softphone users. Built in speaker with 8 different ringtones.

- Rings and flashes on incoming calls
- Beeps & flashes – Indication for IMs.
- Missed call/IM – Flash notification.

Value for money

- No need for any user configurations on the PC.
- Easy for IT to manage and support.
- Windows doesn't see Busylight as a speaker – so you don't hear disruptive PC system sounds.
