

- 2 Rotate the headset up. The headband can be worn on the right or left side.

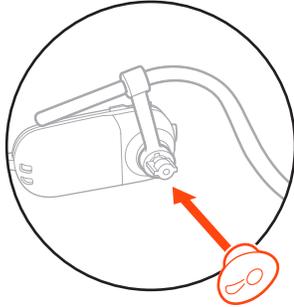

- 3 To optimize the position of the headset, push the headset in so the microphone is close to your mouth.

#### Behind-the-Head Assembly

- 1 Align the headband as shown. Ensure the headband sits flat against the headset, then rotate it up 90°. If you want to wear it on the left, switch the stem to the left side of the headband.

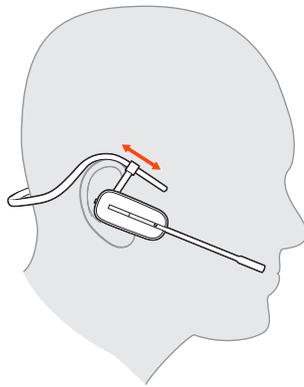

- 2 Choose the size and style of the eartip that fits most comfortably. Align the eartip with the notch facing the microphone as shown. Press on to attach.

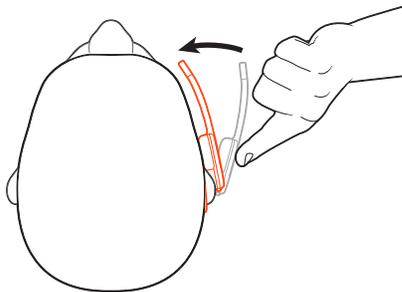

**NOTE** Ensure the large end of the ear tip points to the microphone.

- 3 To position your headset correctly, first slide the stem of the headband so the headset fits comfortably.

- 4 With a finger on the headset indicator light, push in until the microphone rests as close to your cheek as possible without touching.

## Charge your headset and spare battery

### Charge your headset

Place the headset in the charge cradle. The headset charging LED flashes when charging the headset and turns off when the headset is fully charged. Charge for at least 20 minutes prior to the first use. A full charge takes 3 hours.

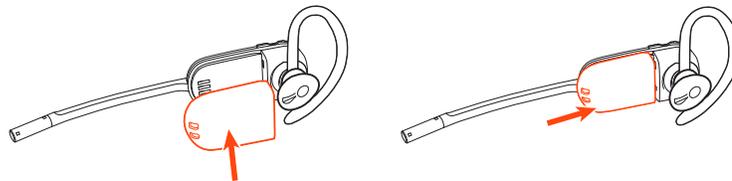

### Charge Spare Battery

Charge spare battery by connecting charger to a USB power source. LED flashes while charging. You can replace headset battery even during active calls.

### Replace battery during a call

You can replace your headset battery even during active calls.

- 1 While on a call, remove your headset battery. Your headset mutes.
- 2 Replace with a charged spare battery.
- 3 You hear "base connected" and "mute off" when the battery is replaced and you are reconnected to your call.

## Talk time

With a full charge, the headset provides up to 5 hours of continual talk time. Changing batteries provides unlimited talk time.

## Headset battery status

Determine your headset battery status:

- Listen to the voice prompts after powering on the headset
- Hover over the Plantronics Hub system tray icon
- View in Plantronics Hub app

# Load software

Plantronics Hub is an invaluable headset tool.

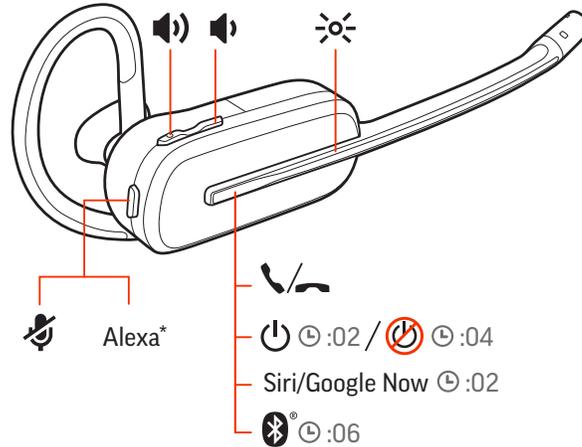

**NOTE** Some softphones require the installation of Plantronics Hub for Windows and Mac to enable headset control (answer/end and mute) functionality.

- Download Plantronics Hub for Windows/Mac by visiting [plantronics.com/software](https://plantronics.com/software).
- Download Plantronics Hub for iOS/Android by visiting [plantronics.com/software](https://plantronics.com/software), the App Store or Google Play.

Plantronics Hub	iOS and Android	Windows and Mac
Call control for softphones	available for some softphones	X
Change headset language	X	X
Update firmware	X	X
Turn features on/off	X	X
View user guide	X	X

Enable Tile (requires app)	X	

# The Basics

## Power on or off

Press the Call  button until you hear "power on" or "power off."

## Adjust volume

- **Headset volume** Fine-tune your headset volume by adjusting the headset's volume up (+) and down (-) controls.
- **Desk phone volume** When you are on a desk phone call and your voice is too quiet/loud, adjust the speaking  volume on the bottom of the base. If your caller's voice is too loud/quiet on a desk phone call, adjust the listening  volume.
- **Base ringtone volume** Adjust the base ringtone volume setting in Plantronics Hub. This ringtone alerts you if you are not wearing your headset and a call comes in.

### Adjust headset microphone volume (softphone)

Place a test softphone call and adjust softphone volume and PC sound volume accordingly.

## Make, answer, end calls

On the front of the base there are 2 Audio /  buttons: computer and desk phone. These buttons allow you to switch to a different phone line/audio channel.

### Make a call (computer or desk phone)

- 1 Tap an Audio button /  on your base display. You hear a dial tone.  
*Desk phone only:* Press the phone's Headset  button or manually remove the handset if you don't have an HL10 lifter or EHS cable.

**TIP** If you do not hear a dial tone, turn over the base and adjust the switch (A--G). "A" works for the majority of desk phones. "D" works for Cisco phones.

- 2 Dial from your softphone or desk phone.

### Answer or end a call

To answer or end a call, choose:

- Tap the headset Call  button.
- **Computer or desk phone:** Tap the corresponding Audio button /   
*Desk phone only:* If you don't have an HL10 lifter or EHS cable, Press the phone's Headset  button or manually remove the handset when answering a call or hang up the handset when ending a call.

### Mute

During a call, tap the headset mute button. Tap again to unmute. When mute is on, the LED is solid red. Modify your mute settings in Plantronics Hub for Windows/Mac.

### Hold a call

To hold an active call or resume a held call:

- Press the headset Call  button for 2 seconds.
- **Computer or desk phone:** Press the corresponding base Audio  button for 2 seconds. The button flashes red when a call is on hold.

**NOTE** 2 desk phone calls can be put on hold only from your desk phone.

### Switch between calls (flash)

To switch between calls:

- Press the headset Call  button for 2 seconds.
- **Computer or desk phone:** Tap the corresponding Audio button on the base. The button flashes red when a call is on hold.

**NOTE** Switching 2 desk phone calls can only be done from your desk phone.

# More Features

## Voice assistant (smartphone feature)

**Siri, Google Now™, Cortana** Press and hold the Call button for 2 seconds to activate your smartphone's default voice assistant. Wait for the phone prompt to activate voice dialing, search, and other smartphone voice controls.

**ATTENTION** *Voice assistant is only active when your headset is out of base range and paired to a smartphone.*

## Enable and use Amazon Alexa (smartphone feature)

With Alexa enabled on your headset, you can ask for directions, call friends, access Alexa Skills and more.

**NOTE** *Amazon Alexa isn't available in all languages and countries.*

- 1 Enable Alexa
  - A Pair the headset to your mobile device**
  - B Update your Plantronics Hub mobile app (software) if necessary**
  - C Launch Plantronics Hub app and ensure that your headset (firmware) is up-to-date**
  - D From Plantronics Hub main menu, choose Apps > Amazon Alexa > Enable**
  - E Launch the Amazon Alexa app and follow the instructions to set up your headset**
- 2 Use Alexa
  - A To use Alexa, tap the Mute button (when not on a call) and ask a question. You hear a tone when Alexa is activated.**

## Enable Tile

With the Tile app enabled on your mobile device, you can ring your lost headset or locate it on a map and ask the Tile community for help.

- 1 Pair the headset to your mobile device
- 2 Update your Plantronics Hub mobile app (software) if necessary
- 3 Launch Plantronics Hub app and ensure that your headset (firmware) is up-to-date
- 4 From Plantronics Hub main menu, choose **Apps > Tile > Enable**
- 5 Launch the Tile app and follow the instructions to connect your headset

## Change your default line

Change the default outbound phone line/audio channel in Plantronics Hub for Windows/Mac.

## Online indicator

Your headset LEDs flash red to inform others that you are on a call. Manage settings in Plantronics Hub.

# Troubleshooting

## Headset

---

I can't hear a dial tone in the headset.

- Make sure your headset is charged.
- Make sure your headset is paired to base. See [Pair again to base](#).
- Adjust the configuration switch (A--F) on the bottom of the base until a dial tone is heard. The default **A** works for most phones. **ATTENTION** Use configuration **D** for Cisco phones. Cisco phones connected with EHS cable use configuration **A**.
- Make sure your desk phone is connected correctly to your base. See [Desk phone setup details](#).
- If your base is connected to your desk phone's dedicated headset port, press the desk phone's headset button to hear a dial tone.
- If your base is connected to your desk phone's dedicated headset port, press the desk phone's headset button and base's desk phone button to hear a dial tone.
- If your base is connected to your handset port, manually remove the handset to hear a dial tone (if you do not have an EHS cable or HL10 lifter).
- Make sure your HL10 lifter is lifting the handset high enough to operate the hookswitch; set to a higher setting if necessary.
- Adjust the headset's listening volume. See [Adjust volume](#).
- If the volume is still too low, adjust the desk phone listening volume on the base. See [Adjust volume](#).

---

I hear static.

- Make sure there is at least 12 inches between your base and your computer, and 6 inches between your base and your telephone. If adjusting the distance doesn't help, your headset is going out of range, move closer to the base. See [Position Your Base](#).

---

The sound is distorted.

- Lower the desk phone speaking volume and/or desk phone listening volume on the base. For most telephones the correct setting is position 2. See [Adjust volume](#).
- If your desk phone has a volume control, lower until the distortion disappears.
- If the distortion is still present, adjust the headset volume control to lower the headset speaker volume. See [Adjust volume](#).
- Make sure there is 12 inches between your base and your computer, and 6 inches between your base and your telephone. See [Position Your Base](#).

---

I hear echo in the headset.

- Lower the desk phone speaking volume and/or desk phone listening volume on the base. For most telephones the correct setting is position 2. See [Adjust volume](#).
  - If the audio level is too low in this position, increase the headset volume. See [Adjust volume](#).
  - If your speaking volume is too low for your listener in this position, adjust the position of the headset to make sure the microphone is as close as possible to your mouth.
-

- People I talk to can hear a buzz in the background.
- Move the base further away from your phone. See [Position Your Base](#).
  - If the base power supply is plugged into a power strip, plug it into the wall directly.

- 
- I can't activate Siri or Google Now on my headset.
- Your smartphone's default voice assistant is a mobile-only feature and is not active when your headset is in range of your base.
- Ensure that your headset is out of base range
  - Ensure that the headset is paired to your smartphone
  - See [Voice assistant](#)

- 
- I can't activate Alexa on my headset.
- [Alexa requires one-time setup in Plantronics Hub for iOS/Android. See Enable and use Amazon Alexa.](#)

---

## Desk phone

- The handset lifter is installed but does not lift the handset.
- Be sure the handset lifter power cord is firmly pushed into the handset lifter jack on the base.

---

## Softphone

- When I dial from my softphone application, nothing happens.
- Ensure your headset is charged.
  - Ensure your headset is paired to the base. See [Pair again to base](#).
  - Ensure that Plantronics Hub for Windows and Mac software is installed. To download, visit [plantronics.com/software](http://plantronics.com/software).
  - Ensure that you are using a compatible softphone application. For a list of compatible softphones, visit [plantronics.com/software](http://plantronics.com/software).
  - If the Plantronics software is not installed and you do not have a compatible softphone, you must first press the base's Audio button and then use the softphone interface to place/answer/end calls.
  - Ensure that the headset is the default sound device by going to your Sound Control Panel (Windows) or your Sound System Preferences (Mac).
  - Restart your computer.

- 
- Speaking and/or listening volume is too low or too high.
- Adjust headset listening volume with volume button.
  - Adjust listening/speaking volumes in the computer's sound control panel/system preferences.
  - Adjust listening/speaking volumes in the softphone application.

- 
- The sound is distorted or I hear an echo in the headset.
- Reduce speaking and/or listening volume on the computer using your softphone application.
  - Point microphone towards your chin.
  - If the distortion is still present, lower the volume on the headset.

- 
- I can no longer hear any audio through my PC Speakers.
- For Windows 10 and Windows 8 systems**

- Go to **Start > Control Panel > Sounds and Audio Devices > Audio > Sound Playback** and change the default setting from your headset to your PC speakers. Click "OK" to confirm your change.

**For Windows Vista and Windows 7 systems**

- Go to **Start > Control Panel > Sounds > Playback** and change the default setting from your headset to your PC speakers. Click "OK" to confirm your change.

**For Mac OS X**

- Choose Apple menu > System Preferences and click Sound.
- Click Output, and then select "Internal Speakers" or your speaker choice.

---

No audio connection to PC.

- Unplug USB and power cables from base. Reconnect power cable first. Wait for power LED to illuminate, then reconnect USB cable. Quit and then re-start your PC audio or softphone application.
-
